In Case of Fire, Use Stairway For Exit. Do Not Use Elevator.

IF THE FIRE IS IN YOUR ROOM:
A. Leave the room and close door. (Take your room key or key card with you.)
B. IN ALL CASES, Pull the fire alarm. (1) If there is a phone available, 911. Give them: Name of Building, Address and Cross Street. (2) Call the hotel operator by dialing "0".
C. Evacuate the Area. (1) Alert others in the area. (2) USE STAIRWAYS, NOT THE ELEVATORS. (3) If there is smoke, stay low.

IF YOU ARE TRAPPED IN YOUR ROOM:
A. Wedge cloth material along the bottom of the door to keep out smoke.
B. Retreat - Close as many doors as possible between you and the fire.
C. Block air conditioning vents if there is smoke coming into the room.
D. If windows are openable, and you must have air, open the window. Break the window only as a last resort, as it will become impossible to close it if necessary due to smoke.

FOR YOUR SECURITY:
A. For your privacy and security, please always use the deadbolt to double lock your room from the inside. The safety latch and door viewer should be used to visually identify anyone outside your door. Please follow these same guidelines for connecting and poolside doors.
B. For the safe keeping of your valuables state law limits liability for loss of articles left in guestrooms. Please use safe deposit boxes which are provided without charge at the front desk in the lobby.
